

Roof PIN

THE INTELLIGENT ROOF FLASHING

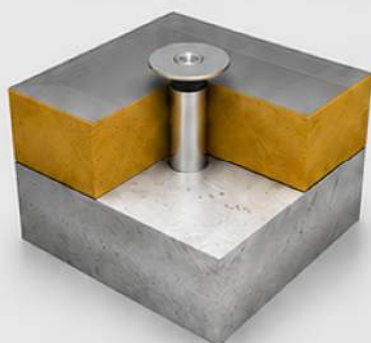

ETA-24/0836
European
Technical
Assessment

SAFE. CLEAN. FUTURE-PROOF.

The ETA-approved solution for
your roof flashing through the
waterproof layer.

ETA-24/0836
European Technical Assessment
according to EAD 333915-00-0601

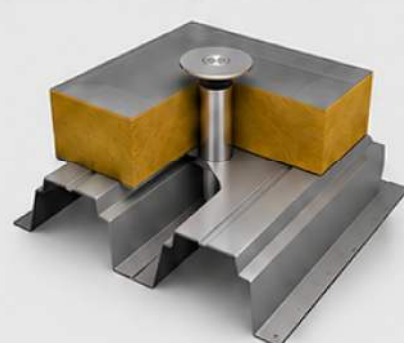

CONCRETE

Secure fastening in concrete
with thermal separation.

WOOD

Ideal for wooden substrates –
durable and airtight.

TRAPEZOIDAL SHEET

Perfect for trapezoidal metal roofs –
fast and securely installed.

SAFE, CLEAN AND DURABLE ROOF FLASHING

The waterproofing layer remains intact
without the need for sealing,
permanently watertight.

THERMAL SEPARATION

Thermal decoupling reduces
thermal bridges and ensures
low U-values.

MINIMAL BUILD-UP HEIGHT

From the waterproofing material to the
fastening – maximum design freedom
with minimal build-up height.

CUSTOMIZED DESIGN

With a modified aluminum substructure (UK)
flexibly adaptable – suitable for
almost any application.

VERSATILE APPLICATION

Roof PIN is suitable for various
substrates: concrete, wood and
trapezoidal sheet.

EUROPEAN APPROVAL

European Technical Assessment
ETA-24/0836 – tested safety
and top-level quality.
